

2010 Mopar Nationals OEM™ Certification Entry Application

"OE-Certification" \$200 (Entry Limited) (Original Equipment Manufacture Certification)

These entries are judged against a set of standards as specified by Mopar Nationals Inc. Everything on the vehicle is reviewed for condition, originality, and correctness. Date codes, VINs, and so on are all checked. Vehicle documentation (window sticker and broadcast sheet, among other things) is important and will add points. Vehicles must be at least **20 years old**. This class is intended for the ground-up-type restorations or for vehicles that are in an exceptionally original and near-perfect condition. More than 2,200 points can be awarded: 95 percent of the total points are required for Gold, 90 percent for Silver, and 85 percent for a Bronze. Cars scoring under 85% of the available point total are not awarded a certificate. Cars can be judged in this classification only once. After a period of three years, the car may be entered into this classification again if there is an opening. Only a limited number of cars are accepted due to the nature and time it takes to perform this judging. Acceptance is based on the vehicle's past showings, placing, and, obviously, its condition. Note: Submitting this form does not guarantee you a position in this year's judging. The form will be reviewed and you will be contacted on your acceptance/denial. If denied, you will be wait listed for the next available year; your entry fee will be returned.

NOTE: The Name submitted on this entry form will be the name that appears on the Certificate.
